Subject: Touching base on superfund site

Hi Rachel,

Obviously the West Calumet superfund site in East Chicago, Ind. is getting some press tonight. It would be great if we could chat tomorrow via phone if you have time. I would like to make sure I have a full understanding of EPA's role, specifically as it relates to housing residents. If IDEM has any role to play from your perspective, that would be good to know as well. I already have touched base with the project manager for this site to get a briefing. Thank you! Courtney
